

EDUCATION

KCC Institute Of Technology and Management, Noida
Bachelor of Technology - Computer Science & Engineering, **Percentage :77%**

Noida,IN
2018 -2022

KEY SKILLS

Technical: ASP.NET Core, WebAPI, Angular, Java, SQL, JavaScript, jQuery, ASP.NET MVC, Angular js, React js
DevOps & Cloud: CI/CD, Azure DevOps, Azure Maps

WORK EXPERIENCE

Greenware Soltion Pvt Ltd
Software Engineer

Mumbai,IN
Feb.2025 - Present

- Contributed to the development of Fund-Core, a cloud-based, white-labeled investment platform supporting multi-asset transactions (Mutual Funds, FDs, Bonds, Equities, Lumpsum Order).
- Led the UI design and implementation of responsive, modular components using Angular, focusing on enhancing user experience and usability.
- Developed and maintained secure, scalable RESTful APIs using ASP.NET Core, enabling seamless integrations.
- Conducted unit and integration testing to ensure platform reliability, reducing production bugs by over 40%.
- Contributed to architectural decisions for Azure-based deployment, ensuring scalability, availability, and enterprise-grade security.
- Designed and optimized complex SQL Server queries and procedures, ensuring high-performance data access and reliability for real-time analytics modules.

Kalingam Technology Pvt Ltd, Noida
Software Engineer

Noida,IN
Mar.2024-Jan.2025

- Developed, tested, and maintained scalable and secure web applications using ASP.NET Core and C# within the Visual Studio IDE.
- Built responsive and user-friendly front-end interfaces using MVC architecture, HTML5, CSS3, JavaScript, and jQuery.
- Collaborated closely with cross-functional teams (QA, BA, PMs) to deliver high-quality, customer-centric solutions aligned with business requirements.
- Designed and optimized SQL Server databases, queries, and stored procedures to ensure efficient data access and backend performance.
- Participated in code reviews, contributed to design discussions, and ensured adherence to best practices and coding standards.

Digital Successive
Associate Software Engineer

Noida,IN
Jan.2022-Mar.2023

- Contributed to the development of a smart agricultural system aimed at identifying and converting unwanted plant zones into productive crop areas using geospatial technology.
- Integrated Esri Maps (ArcGIS) to mark land areas using lines, polygons, and points, enabling precise agricultural zone classification.
- Improved the application's user interface and user experience, enhancing usability for field workers and agricultural planners.
- Collaborated with cross-functional teams to build a scalable, responsive web platform using ASP.NET MVC, JavaScript, jQuery, and Dojo Toolkit.
- Extracted and interpreted critical information from map popups, efficiently storing geolocation data and metadata into a structured SQL database.
